## 1959-60 SEASON

The following plants are offered subject to stock being unsold on receipt of the order. All plants are guaranteed to be true to name and to arrive at destination in good condition. Prices quoted include transportation charges within the United States.

**TERMS: Cash with order. Minimum order: \$3.00.**

## AMARYLLIS

Amaryllis are one of the most spectacular and beautiful of the spring flowering bulbs. They are universally grown throughout the entire United States. In the Deep South they may be grown and flowered out of doors. In all parts of the country they are successfully grown indoors in pots for late winter and early spring flowers. Since they are perennials the purchase of an Amaryllis bulb represents a long time investment in beauty and pleasure.

The Ludwig strain of named Dutch hybrids will be received from Holland in December. In addition, it has been possible this season to obtain ten varieties of the "Royal Dutch Amaryllis" produced by Willem S. Warmenhoven at Hillegom, Holland.

Only a limited number of bulbs of each variety will be stocked, but the supply may be increased as needed to meet nominal demands provided your order is received by or before October 15th. Every season a number of customers are disappointed in receiving the varieties which they wanted because they waited too late to order, so please order early this season.

Amaryllis bulbs make nice Christmas presents to friends and relatives who are flower lovers. Send your gift card to this nursery. It will be mailed along with the bulb directly to the person for whom the gift is intended.

Red leaf spot or red fire, caused by the fungus *Stagonospora curtisii*, was widespread throughout the South in the spring of 1959. To eliminate the bulb-borne phase of this disease it is recommended that the dormant bulbs be soaked for two hours in a solution of one part of commercial formaldehyde to 200 parts of water.

The Dutch hybrid Amaryllis are of a full, flat, rounded form. Usually there are two scapes per bulb and three to four 8" flowers on each scape.

## LUDWIG HYBRID AMARYLLIS

<b>AMERICAN EXPRESS</b> —Oriental red. Rated (AA) in Cleveland trials .....	<b>\$3.25</b>
<b>APPLE BLOSSOM</b> —White with dawn pink. Appropriately named .....	<b>\$3.50</b>
<b>ATTRACTION</b> —An elegant Capsicum red with dark, glossy throat .....	<b>\$2.75</b>
<b>BLAZING STAR</b> —Dark vermillion red self with glossy throat .....	<b>\$3.75</b>
<b>BOUQUET</b> —Begonia pink with throat of dark, glowing Empire rose. (Rated AA)	<b>\$3.75</b>
<b>BRIDESMAID</b> —Pure white with a light green tinge in the throat .....	<b>\$2.75</b>
<b>BRILLIANT</b> —Lively signal red with a glossy, dark red throat .....	<b>\$2.75</b>
<b>CANDY CANE</b> —Alternately red and white in the right proportions.....	<b>\$3.50</b>
<b>CARDINAL</b> —Dark oxblood red with currant red throat.....	<b>\$5.00</b>
<b>CHAMPION'S REWARD</b> —Lively oriental red with a dark, glossy throat .....	<b>\$3.75</b>

<b>CHRISTMAS GIFT</b>	Pure white. Late flowering .....	<b>\$4.00</b>
<b>DAINTINESS</b>	Porcelain rose with a crimson rose glow in the throat .....	<b>\$4.00</b>
<b>DELILAH</b>	Begonia or salmon pink with throat shading to red .....	<b>\$3.75</b>
<b>DIAMOND</b>	Geranium-like red with a glossy red throat .....	<b>\$3.75</b>
<b>DORIS LILIAN</b>	Carmine rose with carmine throat. Rated (A).....	<b>\$3.75</b>
<b>FANTASY</b>	Delft rose with faint light rose stripes on each petal.....	<b>\$3.25</b>
<b>FIRE DANCE</b>	Dutch vermillion with violet red in the throat.....	<b>\$5.00</b>
<b>FIVE STAR GENERAL</b>	Signal red with a large white star in the center .....	<b>\$5.00</b>
<b>FRANKLIN ROOSEVELT</b>	Currant red to blood red with very dark red throat..	<b>\$3.25</b>
<b>HALLEY</b>	Lively poppy red with very dark throat. Rated (AA) at Cleveland..	<b>\$3.25</b>
<b>INVINCIBLE</b>	Shapely semi-trumpet flower of capsicum red. Dark red throat..	<b>\$3.25</b>
<b>LA FOREST MORTON</b>	Lively claret rose .....	<b>\$5.00</b>
<b>LIBERTY HYDE BAILEY</b>	Clear, glowing oriental red self.....	<b>\$3.75</b>
<b>LOVE'S DESIRE</b>	Coral pink with white in center of petals. (Award of Merit)	<b>\$3.50</b>
<b>LUCKY STRIKE</b>	Solid oriental red with darker oxblood red throat .....	<b>\$4.00</b>
<b>LUDWIG'S ACE</b>	Azalea pink to salmon orange. Glossy.....	<b>\$5.00</b>
<b>LUDWIG'S DAZZLER</b>	Dazzling white. Probably the favorite white .....	<b>\$3.75</b>
<b>LUDWIG'S GOLIATH</b>	Largest Amaryllis. Dark oriental red.....	<b>\$3.50</b>
<b>LUDWIG'S IT</b>	Large, dark blood-red with currant red throat .....	<b>\$5.00</b>
<b>LUDWIG'S MASTERPIECE</b>	Dark Dutch vermillion with a dark, glossy throat..	<b>\$4.00</b>
<b>LUDWIG'S SCARLET</b>	Magnificent dark red. Rated (A) in Cleveland trials	<b>\$2.75</b>
<b>LUDWIG'S SPLENDOR</b>	Dark vermillion red with an auburn glow. Darker throat .....	<b>\$3.75</b>
<b>MARGARET ROSE</b>	Upper petals mandarin red. Lower petals Begonia rose....	<b>\$3.25</b>
<b>MARIA GORETTI</b>	Beautiful white, slightly fringed .....	<b>\$2.75</b>
<b>MISS MARGARET TRUMAN</b>	Popular rose pink. (Award of Merit).....	<b>\$3.75</b>
<b>MOTHERSDAY</b>	Mandarin red with lower petals faintly striped. Dark red throat .....	<b>\$2.75</b>
<b>NIVALIS</b>	Very popular pure white with green throat. (Award of Merit) .....	<b>\$2.75</b>
<b>PEACEFULNESS</b>	Blood-red to oriental red suffused with a carmine glow.....	<b>\$2.75</b>
<b>PICOTEE</b>	Pure white with a clearly marked red edge. Distinctive; scarce.....	<b>\$7.50</b>
<b>PINK FAVORITE</b>	Popular pink. Camellia rose with darker rose center.....	<b>\$4.00</b>
<b>PINK PERFECTION</b>	Rose opal shading to carmine rose at tips of petals.....	<b>\$4.00</b>
<b>PINKSTERFLOWER</b>	Beautiful azalea pink with poppy red throat .....	<b>\$2.75</b>
<b>PRIMA DONNA</b>	Begonia rose to dark salmon rose.....	<b>\$5.00</b>
<b>SAFETY JOY</b>	Soft mandarin red or salmon orange. (Award of Merit) .....	<b>\$2.75</b>
<b>SHAKESPEARE</b>	Warm, glowing oriental red. Darker glowing throat .....	<b>\$2.75</b>
<b>SILVER LINING</b>	Red with a white star and petals edged white .....	<b>\$5.00</b>
<b>SIREN</b>	Salmon rose, slightly violet shaded. Light streak in center of petals .....	<b>\$3.00</b>
<b>SPRING DREAM</b>	Delft to salmon rose.....	<b>\$5.00</b>
<b>TRAFFIC STOP</b>	Clear capsicum red with darker throat .....	<b>\$5.00</b>
<b>WHITE GIANT</b>	Pure glistening white. (Award of Merit, Amstelflora) .....	<b>\$3.25</b>
<b>WINTER JOY</b>	Solid vermillion red with throat of dark vermillion .....	<b>\$4.00</b>
<b>WYNDHAM HAYWARD</b>	Magnificent dark oriental red. Glossy blood-red throat	<b>\$3.75</b>

### ROYAL DUTCH AMARYLLIS

(Warmenhoven Strain)

<b>BEACON</b>	Deep salmon with $\frac{3}{4}$ " white band in center of each petal.....	<b>\$4.00</b>
<b>BORDEAUX</b>	Rich Bordeaux wine-red with deep scarlet throat .....	<b>\$3.00</b>
<b>JOAN OF ARC</b>	Pure glistening white with green throat.....	<b>\$3.00</b>
<b>MORENO</b>	Medium to dark red suffused rose-red in the throat.....	<b>\$3.25</b>
<b>QUEEN OF THE WHITES</b>	Glistening, waxy, pure white with touch of green in throat. Rated (AA) in Cleveland trials .....	<b>\$3.50</b>
<b>QUEEN'S PAGE</b>	Delicate salmon. Rated (AA) in Cleveland trials .....	<b>\$3.25</b>
<b>SCARLET BEAUTY</b>	Bright scarlet red; deeper in the throat .....	<b>\$3.25</b>
<b>SCARLET TRIUMPH</b>	Large, flat, flaring scarlet red.....	<b>\$3.25</b>
<b>SWEET SEVENTEEN</b>	Very popular rose pink with salmon pink base. Large..	<b>\$3.25</b>
<b>RED MASTER</b>	Huge, dark red of excellent substance.....	<b>\$3.25</b>

### AMERICAN HYBRID STRAINS OF AMARYLLIS

The American strains are based largely on the hybrids developed by the late Theodore L. Mead of Florida. They are more hardy and vigorous than the Dutch hybrids, but do not have the flat form and wide, rounded flowers. Crosses between

the American and Dutch strains usually result in increased vigor over the Dutch and improvement in the flowers of the American strain.

**AMERICAN HYBRIDS × DUTCH HYBRIDS**—Red shades..... \$1.00

#### **AMARYLLIS EVANSIAE**

The yellow Amaryllis from Bolivia is now commercially available in limited quantities. This cream white to pale yellow species develops a pink blush with age and consequently is sometimes called "The Blushing Amaryllis of Santa Cruz." It resembles *A. belladonna* L. in flower conformation and size and crosses with this species to form attractive hybrids which are remarkably uniform in size, shape and color.

Reference is made to the following literature on *Amaryllis evansiae*: "Bolivian Form of *Amaryllis Belladonna* L. and another Species of the Same Area," Ira S. Nelson, *Herbertia*—1956, Page 3; "*Amaryllis Evansiae* in Honor of Mrs. U. B. Evans," Claude W. Davis, *Herbertia*—1957, Page 23; "*Amaryllis Evansiae*," Traub and Nelson, *Hebertia*—1958, Page 29; and Bulletins 1, 2 and 3 of the Louisiana Society for Horticultural Research.

**AMARYLLIS EVANSIAE**—Blooming size bulbs, Nov.-Dec. delivery ..... \$5.00

---

#### **LOUISIANA NATIVE IRISES**

These beautiful native plants may be grown in practically every section of the United States in upland gardens, provided they are well fertilized, heavily mulched and watered frequently during periods of prolonged drought. The rhizomes may be move successfully at any time during late summer and fall, but the best period is during the months of August, September and October. Since these plants are natives of bogs and swamps, growing naturally in water, they may also be used effectively around the borders of shallow streams and pools. The graceful flowers are very effective in making arrangements or they may be used as a corsage.

The group of plants which are collectively classed as "Louisiana Irises" is composed of three principal species and their hybrids. The species are *I. fulva*, the red or flame colored iris of the Lower Mississippi Valley; *I. giganticaerulea*, the tall blue of the Lower Gulf Coast; and *I. foliosa*, the little blue to lavender dwarf of the bluff or terrace lands. *Iris virginica* is also native to Louisiana, but it grows in other regions outside the state and does not hybridize with the other species. It is largely found growing in the poorer pine flatlands.

**Shipping period: Middle August through October.**

#### **1959—INTRODUCTIONS:**

**GEISHA GIRL** (Davis 1959)—Standards of Geisha Pink and falls of light purple, heavily veined, with short line of Lime Yellow at the crest. Flowers 5" on 34" scapes. (Louisiana Delight + Carol Judice) ..... \$3.00

**CORAL BELL** (Davis 1959)—Large, light red-violet flower with 6½" spread. Chrome yellow line at crest. A free blooming, vigorous plant ..... \$2.00

**BONNET CARRE** (Davis 1959)—Violet blue, 5½" flowers with standards of Roman Purple and falls of *Prunella* Violet. Prominent chrome yellow steeple crest ..... \$2.00

**PIROGUE** (Davis 1959)—Light cygnet red with large, 6½" flowers borne on 45" scapes. Falls have a darker red veining with a single crest line of Golden Rod yellow ..... \$2.00

**BELLE HELENE** (Mertzweiller 1958)—Fine reddish purple with several short, radiating lines of chrome yellow at crest. Large, flat flowers with broad falls. Very vigorous. (Peggy Mac × collected *I. foliosa* hybrid) ..... \$2.00

**LSU BEAUTY** (Ornamental Horticulture, L.S.U. 1959)—Exceptionally fine Sweet Pea pink with 7" flowers on 38" scapes. Voted the best in the pink class and best unregistered iris in the show at 1956 Convention and Show of Society for Louisiana Irises. (Peggy Mac × Young's Coulee Yellow) ..... \$3.00

**LSU TAN** (Ornamental Horticulture, L.S.U. 1959)—Colonial buff with 5" flowers on 32" scapes. Best in Buff to Yellow Class in 1956 State Show of Society for Louisiana Irises. Sister seedling of "LSU Beauty." ..... \$3.00

**LSU GOLD** (Ornamental Horticulture, L.S.U. 1959)—Light chrome lemon standards with slightly darker falls. Blooms 4½" on 28" scapes. (LSU No. 1 × Maringouin Yellow) ..... \$3.00

**LSU PURPLE** (Ornamental Horticulture, L.S.U. 1959)—Rich purple with 6½" flowers on 42" scapes. Falls marked with a dagger crest of chrome yellow.....\$2.00

#### PREVIOUS INTRODUCTIONS AND VARIETIES OF OTHER BREEDERS AND COLLECTORS

<b>ABBEVILLE RED</b> (Collected)—The "super-fulva" from the region of Abbeville, Louisiana, in various shades of red to terra cotta.....	\$0.50
<b>ABBEVILLE YELLOW</b> (Collected)—The beige yellow mutation of Abbeville Red	\$0.50
<b>ACCENTS DARK</b> (MacMillan)—Dark red classed as "Wild Astor" with flaring form.....	\$1.50
<b>ALINE MARTIN</b> (Arceneaux 1947)—Clear yellow self with green style arms....	\$1.50
<b>AVOYELLES</b> (Davis)—Red violet with 5" flowers. Free of rust.....	\$0.75
<b>BARATARIA BAY</b> (Davis 1959)—6" flowers of light violet with yellow line at crest. Standards a lighter shade. Vigorous and rust free. 32" scapes. (Formerly listed as "Cameron") .....	\$0.75
<b>BARBARA ELAINE TAYLOR</b> (Taylor 1954)—Collected white. A 6" flower with wonderful substance and an ivory glow when open. H. M., AIS, 1955.....	\$2.50
<b>BAYOU CHOCTAW</b> (Davis 1954)—Red orange bitone with ruby standards and canyon falls. Seedling of "Cherry Bounce" .....	\$0.75
<b>BAYOU DUCHESS</b> (Holleyman 1952)—Light grayish blue self of <i>I. giganticaerulea</i>	\$0.50
<b>BAYOU GLORY</b> (Conger 1952)—Wide, overlapping floral segments. Rose Petal sepals and Meadow Pink petals. Bright signal patch of Goldenrod yellow. 30". Midseason H. M., AIS 1953 .....	\$2.50
<b>BAYOU GOULA</b> (Davis)—5" flowers of deep blue violet with a large, triangular crest of aureolin yellow. 28". (Foliosa hybrid × "Starry Night").....	\$0.75
<b>BAYOU SUNSET</b> (MacMillan 1945)—Soft rose with a radiating gold crest. 7" flowers. One of the most popular Louisiana irises. M.S.D. Award, AIS, 1949; H.M., AIS 1950	\$0.75
<b>BEAU GESTE</b> (Davis 1954)—Heavily veined violet blue of great vigor and resistance to rust. ( <i>I. giganticaerulea</i> × "Haile Selassie") .....	\$1.25
<b>BECKIE</b> (Hamner)—Attractive and free flowering pink of medium size. 24".....	\$1.25
<b>BETTE LEE</b> (Davis, V. L., 1951)—Neatly tailored tall white with green styles....	\$1.00
<b>BIENVILLE</b> (Davis 1958)—Lavender self with red purple veining and prominent gold line at the crest. Frequently four 6½" flowers will be open at one time on the 46" scape. Vigorous, hardy plant .....	\$0.75
<b>BIG WOODS PURPLE</b> (Davis 1953)—Tall, vigorous purple with a prominent crest marking of chartreuse in a light field .....	\$0.50
<b>BLACK-OUT</b> (Davis)—Royal red purple with deep purple veining and a gold crest. The 5" flowers are borne on 34" scapes .....	\$0.50
<b>BLUE SKIES</b> (Davis)—Tall, soft blue. Flowers large. Plant vigorous.....	\$0.50
<b>BONNE IDEE</b> (Davis 1958)—Rosy pink described as "Thistle." Prominent "burning bush" crest of sunflower yellow. Falls held horizontally and standards erect on 6" flowers of excellent substance .....	\$2.50
<b>BORDEAUX BEAUTY</b> (Dormon)—Large, dark red, heavily veined with darker red lines. Chartreuse "burning bush" crest marking .....	\$3.00
<b>BOY BLUE</b> (Davis 1953)—Vatican purple self. 24". ( (Foliosa × Fulva) × Starry Night) .....	\$0.75
<b>BRANDYWINE</b> (Holleyman 1952)—Bitone of amber and rose red .....	\$1.00
<b>BRIAR PATCH</b> (Roberts)—Collected Iris foliosa. White with a pale blue overcast and yellow crest marking. Recommended for cold climates .....	\$1.00
<b>CADDO</b> (Trichell 1950)—Red bronze with a very large golden crest. H. M., AIS 1950; M.S.D. Award, AIS 1950 .....	\$1.00
<b>CAJAN JOYEUSE</b> (Thomas 1942)—A very dependable rosy pink bitone .....	\$0.50
<b>CAROL JUDICE</b> (Davis 1954)—Orchid pink with short crest line of chrome yellow. Numerous 5" flowers with broad, erect standards and horizontal falls .....	\$1.00
<b>CATHEDRAL BLUE</b> (Dormon 1945)—Low growing deep blue with a bold, orange crest .....	\$0.50
<b>CHALMETTE</b> (Davis 1958)—Light purple with crest of a single chartreuse line in a radiating light field. The large, bell-shaped flowers have a 7" spread and very wide, overlapping falls. (Collected purple × "Peggy Mac") .....	\$2.00
<b>CHERRY BOUNCE</b> (Nelson 1952)—Bright, wild cherry red self with a brilliant luster. Large flowers of superior substance. (Breeder's Red × "Contrast") H. M., AIS, 1950; M. S. D. Award, AIS, 1951 .....	\$1.50
<b>CHRYSOPHOENICIA</b> (Small 1929)—Purple with radiating lines at the crest. A vigorous and dependable variety which should be in every collection.....	\$0.50

<b>CONTESTANT</b> (Davis 1954)—Violet bitone of Concord purple. Crest marked dandelion yellow. 28". Suitable for cold climate. ("Old Creole" × <i>Iris foliosa</i> hybrid).....	<b>\$0.75</b>
<b>CONTRAST</b> (DeBaillon 1943)—Collected by O. F. R. Bruce near New Orleans. Bicolor of pale orchid standards and violet falls .....	<b>\$2.00</b>
<b>CREOLE BELLE</b> (Holleyman)—A very large and fine clone of <i>Iris giganticaerulea</i> collected in the Cameron Parish Marshes. Tall, deep blue .....	<b>\$0.75</b>
<b>CREOLE CAN-CAN</b> (Granger 1956)—A most unusual Louisiana iris, being a true double. Large attractive flowers on a vigorous plant. Blue with yellow marking at crest .....	<b>\$3.00</b>
<b>CRUSHED GRAPE</b> (Richard)—Light wine purple on a vigorous, healthy plant..	<b>\$0.50</b>
<b>DAVID FISCHER</b> (Fischer 1944)—Violet blue self collected near New Orleans....	<b>\$0.75</b>
<b>DIXIE DEB</b> (Chowning 1950)--Large, clear sulphur yellow of distinctive form, heavy substance and fine lasting qualities. Strong, well branched stalks with several flowers open at one time. Vigorous, early and with a long bloom period. An excellent variety. H. M. AIS, 1956 .....	<b>\$3.00</b>
<b>DORA DEY</b> (Arny 1957)—Large, light purple. Very broad falls with prominent gold crest. Extremely vigorous grower. H. M., AIS, 1957 .....	<b>\$2.00</b>
<b>ECLIPSE</b> (Davis 1959)—Large red violet. Gold steeple at crest. Flower full and flat. Plant vigorous, floriferous and rust resistant. Well branched, 26" scapes. (Formerly listed as "Feliciiana") .....	<b>\$0.75</b>
<b>ELIZABETH THE QUEEN</b> (Nelson)—Large, pale powder blue to lavender .....	<b>\$1.00</b>
<b>FLAT TOP</b> (Davis 1953)—Large, full, flat flower similar in form to "Peggy Mac," but in a pale Wistaria violet, heavily veined Columbine blue. 24" .....	<b>\$1.50</b>
<b>FLYING CLOUD</b> (Davis)—An excellent white sport of <i>I. giganticaerulea</i> collected on Bayou des Allemands near Raceland, La. Similar to "Gheens White" .....	<b>\$0.75</b>
<b>GAY DECEIVER</b> (Clark 1950)—Lavender pink with radiating veins of deep rose pink. Bright yellow crest .....	<b>\$1.50</b>
<b>GHEENS WHITE</b> (Davis 1953)—Large, tall, vigorous white sport of <i>I. giganticaerulea</i> , collected on Gheens Plantation near Raceland, La. Golden yellow marking at crest. Early and dependable. 40" .....	<b>\$0.75</b>
<b>GRACKEL</b> (Chowning)—Intense blue violet marked at crest with faint gold line. 5½" flowers on 42" scapes .....	<b>\$0.50</b>
<b>GULF MIST</b> (Levingston)—Very large and vigorous powder blue with long chartreuse line at crest. An outstanding variety collected in the Cameron Marsh .....	<b>\$1.00</b>
<b>HAILE SELASSIE</b> (MacMillan 1943)—Red violet collected near Abbeville, La. One of the outstanding varieties for use in breeding. Beautiful and vigorous.....	<b>\$0.50</b>
<b>HELEN SMITH</b> (Arceneaux 1947)—Large, early clear yellow of flat form .....	<b>\$1.00</b>
<b>HER HIGHNESS</b> (Levingston 1957)—One of the finest of the collected whites with the large size and vigor of the Cameron Blues. A consistent show winner. Large flowers with broad petals and splendid texture. H. M., AIS, 1957.....	<b>\$3.00</b>
<b>HIGH HAT</b> (Davis 1953)—Tall, light reddish purple. 6" flowers of excellent substance. Wide falls with gold dagger crest. Vigorous plant. ....	<b>\$0.75</b>
<b>HIGH VOLTAGE</b> (Davis 1953)—Large, reddish purple. Standards are Belladonna violet and falls are grape juice purple, heavily veined. Faint chartreuse line at crest. Early vigorous plant. Numerous flat flowers of good substance .....	<b>\$0.75</b>
<b>IMPERIALIS</b> (Viosca)—Rich, imperial purple of good substance and great vigor. Very persistent in the planting .....	<b>\$0.50</b>
<b>IRIS GIGANTICAERULEA</b> (Small 1929)—The tall iris of the marshes just above brackish water. Various shades of large blue flowers .....	<b>\$0.50</b>
<b>JAMBALAYA</b> (Davis 1954)—Light violet bitone with huge, 7" flowers. Prominent chrome crest in a light field. Vigorous grower and free bloomer. (Bayou Sunset × Abbeville Yellow Fulva) .....	<b>\$0.75</b>
<b>JEUNE FILLE</b> (DeBaillon-Dorman 1942)—Tall, frilled white .....	<b>\$0.75</b>
<b>JOE BOY</b> (Richard)—Dusky rose falls and light rose standards. Long chartreuse crest. Broad, overlapping segments on a flat flower.....	<b>\$1.25</b>
<b>JOE MAC</b> (Richard-MacMillan 1950)—Dark blue purple with a short gold line at crest. Collected near Abbeville, La. Large flower of good substance. ....	<b>\$0.50</b>
<b>JUST KATE</b> (Davis 1953)—Deep Lobelia blue with lighter veining. Flowers reflexed. Plant tall and vigorous. ....	<b>\$0.50</b>
<b>KISATCHIE</b> (Davis 1958)—Dark, velvety violet with an iridescent luster. Standards are Seville violet and falls are Vatican purple with yellow line at crest. Flat, 5" flower on 40" scapes. Substance excellent. Plant vigorous and rust resistant. ....	<b>\$1.00</b>
<b>KRAEMER YELLOW</b> (Kraemer 1943)—A clear, bright yellow collected in the Kraemer Bog near Kraemer, La. One of the best of the collected yellows, but not very resistant to rust. Early flowering. ....	<b>\$0.75</b>

<b>LA FOURCHE</b> (Davis 1959)—Large, medium toned violet with a 6" spread. Wide falls with a short, chartreuse line at crest. Standards wide and lighter than falls. Vigorous and free of rust. 36".	\$0.75
<b>LEONA</b> (Heyer)—Vivid orchid with short line at crest. Flay, 6" flower. 34".	\$1.50
<b>LOUISE AUSTIN</b> (Arceneaux 1945)—Deep blue. Low growth but very floriferous	\$0.50
<b>LOUISIANA DAWN</b> (Dormon 1943)—An orchid bicolor. Tall and vigorous.	\$0.50
<b>LOUISIANA DELIGHT</b> (Arceneaux 1950)—Large, clear pink. Vigorous growth.	\$1.00
<b>LOUISIANA HAYRIDE</b> (Davis 1958)—Late blooming reddish purple with darker purple veining. Crest of pyrethrum yellow in a light field of radiating lines. 6" flower of great substance. (Old Creole × Bayou Sunset).	\$2.00
<b>MARY S. DEBAILLON</b> (Dormon 1942)—Showy orchid pink bitone. Very vigorous. M. S. D. Award, AIS, 1948.	\$0.50
<b>MIDSHIPMAN</b> (Richard 1950)—Large, wistaria violet. Distinct yellow signal surrounded by red violet. Large flaring form. Very vigorous. H. M., AIS, 1950.	\$1.00
<b>MISS LOUISIANA</b> (Davis 1954)—Tall, deep blue violet with a golden steeple crest. The 5½" flowers have erect standards and horizontally held falls which are 2" wide. Vigorous and rust resistant. (Haile Selassie × <i>I. giganticaerulea</i> ).	\$0.75
<b>MISTLETOE ROSE</b> (Lambdin)—Medium shade of red violet with long, gold steeple crest. Flowers 7" on 32" scapes.	\$1.00
<b>MISTLETOE GARNET</b> (Lambdin)—Deep, glowing red with flat flowers which have wide, overlapping segments of excellent substance.	\$3.00
<b>MOREHOUSE</b> (Davis 1959)—Ecru seedling of Abbeville Yellow Fulva. Flat flowers with broad segments.	\$0.75
<b>MRS. CAMMIE HENRY</b> (Henry 1943)—Smooth rose-lavender of horizontal form and vigorous growth. A natural hybrid of <i>I. vinicolor</i> type.	\$0.50
<b>NAKATOSH</b> (Trichell 1950)—Dark cygnet red heavily veined. Prominent gold crest. Falls deep rose with darker midrib. Good bloomer with two to three open flowers at one time. H. M., AIS, 1954.	\$2.00
<b>NEW OFFERING</b> (Davis 1958)—Large, full, flat flower of dark blue violet, heavily veined prunella violet. Vigorous and rust resistant. First place in Blue Class in 1957 State Show of Society for La. Irises. A beautiful flower.	\$4.00
<b>OLD CREOLE</b> (Davis 1953)—Tall giganticaerulea blue with white veining. Large, flat flower of excellent substance. Vigorous plant collected by V. L. Davis near New Orleans, La.	\$0.50
<b>OUACHITA</b> (Davis)—Red seedling of "Cherry Bounce." Flat, 5½" flower with reddish purple vein and short line at crest. 36",	\$0.75
<b>PEGGY MAC</b> (MacMillan) Magenta rose. Flat flower with broad segments.	\$0.75
<b>PERIWINKLE</b> (Davis)—Tall, periwinkle blue with large flowers, blooming early	\$0.50
<b>PLAQUEMINE</b> (Davis 1958)—Violet blue 6" flowers with wide falls and a prominent crest of yellow, radiating lines. Vigorous and rust resistant. Very floriferous.	\$0.75
<b>PLUM GOOD</b> (Nelson)—An outstanding bright red. Large flower of firm substance and excellent color fastness.	\$3.00
<b>PSEUDACORUS</b> (Linn. 1753-Europe)—The wild water iris of Western Europe. Clear chrome yellow self. Two varieties are offered. The tall, rank growing variety of Northern France and Belgium, which is best suited to large grounds, and the compact, low growing form from Southern France, which is best suited for home grounds. Each	\$0.50
<b>PURPLE WATERS</b> (Holleyman)—Tall, vigorous purple with large flowers.	\$1.00
<b>PURPLE WONDER</b> (MacMillan 1953)—Giant plant and bloom. Dark, rich purple with a gold crest.	\$2.00
<b>REBEL</b> (Davis 1958)—Large, 6" flower of heavy substance. Havana Rose standards, darker veined. Falls canyon reddish brown, darkening around the golden yellow crest. This vigorous plant has strong scapes which remain erect. A striking and beautiful variety. (Tiger × The Khan).	\$4.00
<b>RICHLAND</b> (Davis 1958)—Deep blue violet with 6" flowers. Vigorous, floriferous and rust free. Well branched scapes. 36" to 40".	\$0.75
<b>ROSE OF ARCADIA</b> (Conger)—Deep shade of "Old Rose" pink. Broad, flat, 5½" flowers. Petals wide and overlapping. Plant vigorous and free of rust. 36".	\$1.50
<b>ROYAL GEM</b> (Smith 1947) Velvet purple with prominent yellow signal patch. Strong grower. Floriferous, with large flowers of splendid substance. A credit to any planting. H. M., AIS, 1951; M.S.D. Award, AIS, 1952.	\$1.50
<b>RUTH HOLLEYMAN</b> (Holleyman 1954)—The only known triploid among Louisiana irises. Very large blue with gold crest. 7" flowers on heavy, zig-zag stems 5' high. H. M., AIS, 1955.	\$3.00
<b>SAINT BERNARD</b> (Davis 1959)—Dark violet with prominent marking at the crest. 6" flowers on 30" scapes. Rust free plant.	\$0.75

<b>SARA GLADNEY</b> (Conger 1952)—Medium shade of rose-magenta-violet. Frilled and flaring form of large size and overlapping segments. H. M., AIS, 1953. ....	<b>\$4.00</b>
<b>SAUCY MINX</b> (Dormon 1949)—Blend of rose and copper. Ruffled, 5" flowers on 34" scapes. H. M., AIS, 1951. ....	<b>\$1.50</b>
<b>SERENE VITALITY</b> (Davis 1958)—Blue violet with gold line at crest. 5" flowers on heavy, zig-zag scapes with some branching. Plant vigorous and healthy. ....	<b>\$0.75</b>
<b>SHADOWS</b> (Richard)—Tall, smokey blue. Vigorous, floriferous and early. ....	<b>\$0.50</b>
<b>SIR LANCELOT</b> (Davis)—Large soft blue with long gold lance at crest. ....	<b>\$0.50</b>
<b>SOUTHERN SKIES</b> (Davis)—Vigorous, low-growing deep blue. Midseason. ( <i>I. foliosa</i> × <i>I. giganticaerulea</i> ). Suggested for cold climates. ....	<b>\$0.50</b>
<b>STARRY NIGHT</b> (Dormon 1945)—Very dark red purple. Prominent golden yellow crest. ....	<b>\$0.75</b>
<b>SUPER RUBRA</b> (Lambdin)—A very large Abbeville Red Fulva. Collected. ....	<b>\$0.75</b>
<b>TALL TIMBER</b> (Davis 1954)—Large red violet self with 6" flowers. Vigorous and highly rust resistant. (Abbeville Red Fulva × <i>I. giganticaerulea</i> ). ....	<b>\$0.50</b>
<b>TENSAS</b> (Davis)—Bitone with dark red violet falls and standards of blue violet. Prominent radiating crest of rich orange. 5½" flowers and 40" scapes. Rust free and vigorous plant. ....	<b>\$0.50</b>
<b>THE KHAN</b> (Dormon 1949)—Velvety, black violet flowers of amazing size and substance. Huge, golden orange signal patch at crest. Vigorous and rust resistant. 7" flowers on 30" scapes. H. M., AIS, 1951; M. S. D. Award, AIS, 1955 ....	<b>\$3.00</b>
<b>TOM TINKER</b> (Richard)—Deep blue of fine form with a rich orange line crest. ....	<b>\$1.00</b>
<b>TRIXIE</b> (Davis, V. L. 1959)—Tall, vigorous pale blue changing to near white as the flower ages. Large flowers of heavy substance. Collected in the Cameron Marsh. ....	<b>\$1.00</b>
<b>UPSTART</b> (Dormon 1951)—Light crimson self with bright yellow signal. H. M., AIS, 1956. ....	<b>\$3.00</b>
<b>VERMILION</b> (Davis)—Dark red, heavily veined flat flower with 6" spread. Substance good. Seedling of "Cherry Bounce." 38". ....	<b>\$0.75</b>
<b>VERNON</b> (Davis)—Very light red violet with wide falls and broad and erect standards of a lighter shade. 5½" flowers heavily veined. ....	<b>\$0.75</b>
<b>VINICOLOR</b> (Small 1927)—Tall, vigorous reddish purple. ....	<b>\$0.50</b>
<b>VIOLET RAY</b> (Dormon 1950)—Huge, pansy purple with creamy white rays. Wide falls and gracefully twisted standards. Vigorous plant, resistant to rust. A magnificent iris. H. M., 1951; M. S. D. Award, AIS, 1953 ....	<b>\$2.50</b>
<b>VIOLIPURPUREA</b> (Small 1929)—An interesting dark purple. A collector's item, first found by Dr. John K. Small in Terrebonne Parish, Louisiana. ....	<b>\$0.50</b>
<b>WALKARU</b> (Holleyman 1952)—Large, intense blue with a gold crest in a light field. The 1951 winner in the blue class at state show of Society of Louisiana Irises. ....	<b>\$1.00</b>
<b>WHEELHORSE</b> (Dormon 1952)—Huge rose bitone with rose pink standards and Amaranth rose falls. Consistent winner in state shows. (Rose of Abbeville × Violet Ray). H. M., AIS, 1955; M. S. D. Award, AIS, 1958. ....	<b>\$5.00</b>
<b>WOOD VIOLET</b> (Dormon, R. 1943)—Low growing, intense blue-violet with a yellow line crest. 24", H. M., AIS, 1951; M. S. D. Award, 1956. ....	<b>\$1.25</b>
<b>YELLOW SUNSET</b> (Davis 1953)—5" flower of Rubient red, darker veined. Segments greenish yellow on the reverse side. Crest marked with five radiating lines of goldenrod yellow. (Abbeville Yellow × Bayou Sunset). ....	<b>\$0.75</b>

#### 1952 RELEASES OF THE AGRICULTURAL EXPERIMENT STATION LOUISIANA STATE UNIVERSITY

<b>LSU No. 1</b> —Amaranth purple with 5" flowers. Long pencil crest of golden yellow. Falls held horizontally. Substance excellent. 30". ....	<b>\$0.75</b>
<b>LSU No. 2</b> —Early mauve pink, darker veined. Short line crest. ....	<b>\$0.75</b>
<b>LSU No. 3</b> —Burgundy violet with dark, radiating veins. Crest marked with green line in light yellow field. Large flowers of "Peggy Mac" type. 34". ....	<b>\$0.75</b>
<b>LSU No. 4</b> —Large, deep rose pink with small gold crest of three irregular lines. Standards a lighter pink. Substance good. 34". ....	<b>\$0.75</b>
<b>LSU No. 5</b> —Large Bishop blue with greenish yellow crest of short, radiating lines. Early, free blooming variety. 34". ....	<b>\$0.75</b>

#### VIRGINICA GROUP

<b>BLUE GIANT</b> (Davis)—Large blue <i>I. virginica</i> collected near Lake Charles, La. ....	<b>\$0.50</b>
<b>CALICO PINK</b> (Murrell 1954)—Bright pink. Large and vigorous plant. ....	<b>\$1.50</b>
<b>CAROLINIANA</b> (Wats. 1898)—Blue with dark purple stems. Large flowers. ....	<b>\$0.50</b>

<b>GIANT WHITE</b> —Collected near Lake Charles, Louisiana, very large. ....	<b>\$0.50</b>
<b>MISS LAKE CHARLES</b> (Levingston)—Large and vigorous bicolor of red and ultramarine blue. ....	<b>\$0.75</b>
<b>VIRGINIA ALBA</b> (Collected by Connell)—An attractive, free-blooming white which is smaller than "Giant White." Found in Southeast Louisiana. ....	<b>\$0.50</b>

All varieties of the Virginica Group are very vigorous, free of disease, and easy to grow. They grow on poorer soil and can withstand more cold and more drought than the species and hybrids, which taken collectively, are called "Louisiana Irises." Even this group of irises, however, will respond to good soil and water as needed.

#### **GARDEN COLLECTION OF UNLABELED RHIZOMES OF LOUISIANA IRISES IN SHADES OF RED, BLUE AND PURPLE**

Per dozen ..... \$3.00 Per 100 ..... \$15.00

#### **SEED OF LOUISIANA IRISES**

In order to encourage the cultivation of our native irises as ornamental plants I distribute seed to all who request them as long as the supply lasts. These seed are open pollinated and mass collected from all the varieties grown in my garden. Send 8¢ in stamps to cover the cost of packaging and postage. Requests will not be acknowledged, but seed will be sent out as soon as they are ready in July. If planted as soon as possible after maturity the seed will germinate in October and the plants will bloom the second year after planting. In cold climates the seed should be planted in gallon cans or flats which may be brought indoors for protection during severe cold spells.

#### **JAPANESE IRIS**

These fibrous rooted irises will do well on the fairly heavy soils of the South provided they are given a fertile soil, high in organic matter, and watered frequently before and during the blooming period. In the area of Baton Rouge, La., they bloom in late May and early June. They need an acid soil, free of lime. They are well suited to planting along the banks of ponds and streams, but will grow in high ground. The magnificent flowers are not for the impatient gardener as they usually do not bloom until the second year after fall planting.

<b>AVIGATA</b> —Double flower in a reddish purple. ....	<b>\$0.75</b>
<b>BLUE EAGLE</b> —Very large blue violet. ....	<b>\$0.75</b>
<b>RED TRIUMPH</b> —Reddish purple. ....	<b>\$0.75</b>
<b>TRUE BLUE</b> —Immense, dark blue self. ....	<b>\$1.00</b>
<b>LA FAVORITE</b> —Double. Large white, veined with thin blue lines. ....	<b>\$1.00</b>
<b>UNLABELED PURPLES</b> —Named varieties, the identity of which has been lost....	<b>\$0.50</b>

(Shipped only in November)

#### **SIBERIAN IRIS**

The Siberians need the same soil and culture as the Japanese Irises. They bloom earlier and make smaller flowers on wiry stems. Fine for cutting and for landscape effect.

<b>CAESAR</b> —Dark blue purple. ....	<b>\$0.75</b>
<b>CAESAR'S BROTHER</b> —Tall, handsome, pansy-purple. ....	<b>\$0.75</b>
<b>COOL SPRING</b> —Clear, pearly blue. ....	<b>\$0.75</b>
<b>ERIC THE RED</b> —Large, broad-petaled flowers of wine red. ....	<b>\$1.00</b>
<b>PERRY BLUE</b> —Clear sky-blue. A vigorous old favorite....	<b>\$0.75</b>
<b>TYCOON</b> —Very large violet blue flowers with broad petals. ....	<b>\$1.00</b>
<b>SNOW QUEEN</b> —White with yellow crest marking. Low growth. ....	<b>\$0.75</b>
<b>UNLABELED BLUE PURPLES</b> —The identity of these plants has been lost....	<b>\$0.50</b>

**NOTE:** Siberian and Japanese irises are shipped only in November. If the total order for these two groups of plants is less than \$3.00, please add 35¢ to cover cost of packing and postage.

## DAYLILIES

These plants may be moved at any time of the year when the ground is not frozen, but the most desirable season in the South is in late summer and early fall after blooming is over. Fall set plants will flower the following spring.

Daylilies will tolerate a great deal of neglect and will survive on poor soil, but for more and larger flowers and a longer blooming period it is desirable that they have a fertile soil, good culture and water as needed during periods of drought.

Diseases are of negligible importance, but in recent years there have been instances of foliage damage by red spiders and both the foliage and flower buds are frequently injured by aphids (plant lice). Both these pests may be controlled by a weekly spray program, beginning in late winter. Malathion has proven to be effective when used in a solution of one tablespoonful to a gallon of water.

In the selection of a variety it is highly desirable that one see the plant growing in his locality. When this is not possible the Popularity Poll and the honors and awards by the American Hemerocallis Society are a good (but not infallible) guide. These are published in this catalog. Important characters to consider are sunfast flowers which do not fade or burn, strong, erect scapes and plants which will rebloom if given water and good culture.

### Key to Symbols used:

Numerals—Scape height in inches	Re.—Remontant, or reblooms
Ev.—Evergreen	J. C.—Junior Citation
De.—Deciduous or dormant in winter	H. M.—Honorable Mention
Semi-ev.—Partly or briefly dormant	A. M.—Award of Merit

SHIPPING PERIOD: Early September through May. No shipments during the hot weather of June, July and August.

## Introducing—

<b>PERMANENT WAVE</b> (Davis, C. W.)—36" Ev.—A striking blend of pink and yellow which is suggestive of the rose "Peace." Large, wide open, sunfast flowers on heavy erect scapes. Seedling of "Prima Donna." . . . . .	<b>\$10.00</b>
<b>SHANNON</b> (Davis, C. W.)—36" Ev. Re.—The finest light yellow grown at this nursery. The big, 7" flower has a light greenish tint and a green throat. It is held upright on strong scapes of medium height and is completely sunfast. (Verilite X Autauga) . . . . .	<b>\$10.00</b>
<b>COOL SPRINGS</b> (Davis, C. W.)—32" Ev. Re.—Cool yellow with a deep, apple green throat. The flower is medium large with a 5-inch spread and is borne on strong scapes which are not too tall. The heavy substance is sunfast and the blooms are creped and fluted with segments recurved at the tips. (Jewell Russell X Autauga). . . . .	<b>\$10.00</b>
<b>WINE CUP</b> (Davis, C. W.)—32" Ev. Re.—Deep rose with a red halo and a yellow throat, changing to green. The medium size flower is trumpet shaped in the lower half, but becomes full and widespread at the extremity. Numerous, sunfast blooms on strong, well branched scapes. Season early midseason to late midseason. A cross between two seedlings. (Delgado 41 X Stout's 33-24-25). . . . .	<b>\$10.00</b>

## PREVIOUS INTRODUCTIONS AND ESTABLISHED VARIETIES OF OTHER BREEDERS

<b>ABCADA</b> (Culpepper 1952)—36" D. Re.—Light yellow self. . . . .	<b>\$2.00</b>
<b>ADONIS</b> (Connell 1952)—28" De.—Salmon pink. Broad, overlapping segments. . . . .	<b>\$5.00</b>
<b>ADELAIDE NEILAND</b> (Taylor 1955) 36" Ev. Re.—Persian Lilac. Wide, ruffled segments on sunfast flowers. Vigorous plant. J. C., 1954; H. M., 1955. . . . .	<b>\$6.00</b>
<b>ALBATROSS</b> (Bach 1954)—44" De.—Very light yellow. Sunfast. . . . .	<b>\$2.00</b>
<b>ALICE</b> (Bach 1953)—42" De.—Large cream-yellow with green throat. Heavily ruffled flowers of good substance. . . . .	<b>\$2.50</b>
<b>AMBER FLAME</b> (Stevens 1956)—40" De.—Huge, triangular buff apricot self. . . . .	<b>\$3.00</b>
<b>AMHERST</b> (Wheeler 1946)—42" Ev. Re.—Light purple. Sunfast. H. M., 1950; A. M., 1952. . . . .	<b>\$1.00</b>
<b>ANGELICA</b> (Connell 1952)—36" Ev. Re.—6" yellow flowers with broad segments	<b>\$1.50</b>
<b>ANN BURRIS</b> (Davis, C. W. 1956)—42" Ev.—Bicolor with 6", sunfast flowers of Bois de Rose and Aureolin yellow. Strong, erect scapes on vigorous plant. . . . .	<b>\$1.50</b>
<b>ANNIE OAKLEY</b> (Wheeler 1954)—36" Ev. Re.—Reverse bicolor in buff with red halo. Sunfast flowers with wide, compact segments. . . . .	<b>\$1.50</b>

<b>ARLA</b> (Wheeler 1951)—42" Ev. Re.—Light canary yellow with overlapping segments. Sunfast. Strong, well branched scapes. H. M., 1954.	\$1.50
<b>ARTISTIQUE</b> (Connell 1953)—36" Ev. Re.—Large lavender pink. Sunfast.	\$2.00
<b>AUTUMN GOLD</b> (Sutton 1952)—34" Ev.—Large, golden yellow with wide, overlapping segments. Early. Strong scapes.	\$2.00
<b>ATLAS</b> (Kraus 1952)—36" De.—Gigantic light yellow with chartreuse shading. Heavily creped and ruffled, sunfast flowers. H. M., 1955; A. M., 1958.	\$4.00
<b>BACCHUS</b> (Wheeler 1950)—32" Ev. Re.—Pink raspberry with green canary throat.	\$1.00
<b>BEGGAR'S CRUMB</b> (Spaulding 1956)—32" Ev. Re.—Mars orange with garnet brown halo. 6" flowers of heavy substance. Strong, well branched scapes.	\$4.00
<b>BEN HAGER</b> (Davis, W. B.)—36" Ev. Re.—Very large dark red with wide segments. 7" flower on strong, well branched scapes.	\$10.00
<b>BESS ROSS</b> (Claar 1951)—36" Semi-ev. Re.—Vivid red with velvety texture and an iridescent luster. Widely opened, beautifully formed flowers. H. M., 1955, A. M., 1958.	\$9.00
<b>BETSY B</b> (Vestal 1952)—28" Ev. Re.—Brilliant red. Sunfast. H. M., 1955.	\$1.00
<b>BIG SHOT</b> (Pumphrey 1955)—42" Ev. Re.—Golden yellow, 8" flowers on strong scapes. Sunfast, attractive, big flowers.	\$2.00
<b>BETTY SOUDERS</b> (Alexander 1956)—34" Ev. Re.—Large, sunfast gold. Full flower.	\$3.00
<b>BILL WOOD</b> (Wood 1950)—44" De.—Bright red self. Widespread, sunfast flowers.	\$3.00
<b>BLONDE BUTTERFLY</b> (Slaughter 1955)—36" Ev. Re.—Pale yellow with wide, rounded petals. Sunfast, 5" blooms remain open into the night. Strong scapes.	\$3.00
<b>BLOODY BUTCHER</b> (Davis, C. W. 1956)—40" Ev.—Red self of Antique Ruby with satiny finish. Large, open, star shaped flowers of excellent substance. Scapes erect.	\$2.00
<b>BLUE DAZE</b> (Connell 1952)—42" Ev. Re.—Dark blue red. Large, wide open flowers of good substance. Scapes strong and erect.	\$3.00
<b>BLUE DANUBE</b> (Lester 1955)—34" De.—Near approach to blue. Segments wide and substance good. Strong, well branched scapes.	\$7.00
<b>BLUE HORIZON</b> (Connell 1952)—36" Ev.—Large, star shaped flower in a medium shade of violet red. This magenta is classed as a "blue."	\$5.00
<b>BLUSHING BEAUTY</b> (Taylor 1956)—36" Ev. Re.—Clear rose pink of medium size. Well branched scape. Sunfast flowers.	\$3.50
<b>BONNER CHARM</b> (Lenington 1954)—28" Ev. Re.—Light, Empire yellow self. Broad, overlapping segments. A "near white" on strong, well branched scapes.	\$3.00
<b>BRAHMS</b> (Henderson 1955)—38" Semi-ev.—Rich crimson heavily flushed with velvety purple. This 6" flower is completely sunfast. A handsome variety.	\$10.00
<b>BRIGHT DANCER</b> (Spalding 1956)—38" De. Re.—Clear, bright red of medium size. Triangular shaped flowers with dark red halo and veined petals. Sunfast.	\$4.00
<b>BRIGHT TAYLOR</b> (Bass 1955)—42" Ev. Re.—Clear, velvety red, sunfast flowers. Good branching. J. C., 1954; H. M., 1955.	\$7.00
<b>BROCADE</b> (Taylor 1949)—38" Ev. Re.—Amber rose with darker veining. Sunfast flowers on strong, well branched scapes. H. M., 1953; A. M., 1956.	\$1.00
<b>BROWNSTONE</b> (Kraus 1950)—36" De.—Wide, glossy, warm brown-purple with a creamy margin. Completely sunfast.	\$1.00
<b>BRULEE</b> (Taylor 1950)—36" Ev. Re.—Cream with green tint in throat. Wide petals with satiny luster. Extended blooming. H. M., 1953.	\$2.50
<b>BRYCE CANYON</b> (Kraus 1952)—36" Ev.—Large, well formed flowers of buff apricot with a light rosy eyezone.	\$4.00
<b>BUTTERCUP LANE</b> (Sass 1955)—40" De.—Fragrant, buttercup yellow self. Lower part of flower is trumpet shaped with upper half flaring. Good branching.	\$5.00
<b>BUTTERSCOTCH</b> (Sass 1955)—40" Semi-ev.—Buff yellow with big green throat. Wide open flowers which face to the side. Fragrant. J. C., 1954; H. M., 1955.	\$4.00
<b>CALUMET</b> (Kraus 1952)—28" De.—Large, tubular, wide-petaled flowers of bright coppery orange, deeper veined.	\$1.00
<b>CAPRI</b> (Milliken 1952)—36" Ev. Re.—Wide, ruffled segments of pale, rosy apricot. Heavy substance; beautifully creped. H. M., 1956.	\$2.00
<b>CAPTAIN RUSSELL</b> (Russell 1956)—36" De. Re.—A magnificent bicolor with lavender petals and ivory sepals. Profuse bloomer. Sunfast, 6" flowers. J. C., 1955; H. M., 1956. Believed to be the best bicolor on the market today.	\$7.50
<b>CARDINALIS</b> (Davis 1957)—28" Ev.—Wild Strawberry Red with Chartreuse throat. Sunfast, 5" flowers, blooming over a long period.	\$3.00
<b>CAMEL</b> (Slaughter 1955)—36" Ev. Re.—The 7" flowers have wide, yellow petals overcast tan and light yellow sepals. Sunfast. Scapes strong and well branched.	\$3.00
<b>CARVED IVORY</b> (Nesmith 1950)—32" De.—Old ivory self of heavy substance. Very	

floriferous. H. M., 1952. ....	\$5.00
<b>CATHEDRAL TOWERS</b> (Milliken 1948)—34" Ev.—Soft, rich yellow with bold, reddish brown halo. H. M., 1951; A. M., 1954. ....	\$2.00
<b>CELESTINE</b> (Davis, W. B. 1950)—32" Ev. Re.—Large, pale yellow. ....	\$3.00
<b>CENTURIAN</b> (Stevens 1956)—40" Semi-ev.—Bright, warm red. Well branched scapes very floriferous. J. C., 1955; H. M., 1956. ....	\$6.00
<b>CHEERY PINK</b> (Hall 1956)—30" De.—Ruffled, creped flowers of azalea pink edged claret rose. Sunfast, extended bloom. J. C., 1955; H. M., 1956. ....	\$5.00
<b>CHEROKEE ROSE</b> (Lester 1955)—36" Ev.—5" flowers of deep rose, becoming lighter at the end of the day. Sunfast. Lime green throat. H. M., 1956. ....	\$3.00
<b>CIBOLA</b> (Hill 1950)—36" De. Re.—Large, light yellow orange or melon color. H. M., 1953; A. M., 1956. ....	\$2.00
<b>CITATION</b> (Taylor 1952)—38" Ev. Re.—Glowing lacquer red which makes a fine garden show. Sunfast flowers on a vigorous plant. H. M., 1954. ....	\$4.00
<b>CLAAR No. 17</b> (Claar)—34" Ev.—Soft, creamy pink of medium size. Numerous sunfast flowers. Blooms over long period on strong, well branched scapes. ....	\$2.00
<b>CLARINDA</b> (Traub—USDA 1952)—36" Ev. Re.—Large Empire yellow. ....	\$1.00
<b>CLUNY BROWN</b> (Taylor 1946)—32" Ev. Re.—Brown and yellow bicolor. Sunfast. ....	\$7.50
<b>COLONEL JOE</b> (Lester 1951)—36" De. Re.—Popular, large pale yellow. Sunfast flowers remain open after dark. H. M., 1953; A. M., 1956. ....	\$3.00
<b>CONCORDIA</b> (Wheeler 1954)—34" Ev. Re.—Medium size flowers of dark red violet. ....	\$1.50
<b>COLONIAL DAME</b> (Milliken 1948)—36" De. Re.—Large, ruffled buff apricot banded with rosy tan. H. M., 1951; A. M., 1953. ....	\$2.00
<b>CONFIDENCE</b> (Baker 1956)—36" Semi-ev.—Broad, salmon peach flowers with greenish throat. Strong grower with good scapes. ....	\$7.00
<b>CONVOY</b> (Sass 1953)—36" De.—Red purple. Floriferous and fragrant. ....	\$2.00
<b>COPPER COLONEL</b> (Sass 1958)—40" De. Re.—Hays russett petals and yellow sepals. Large flowers with greenish throat. H. M., 1951; A. M., 1954. ....	\$1.50
<b>CORAL MIST</b> (Hall 1955)—24" De.—Shell pink, green at throat. Segments broad. H. M., 1955; A. M., 1958. ....	\$5.00
<b>CORONATION ROBE</b> (Davis, C. W. 1956)—38"—42" Ev. Re.—Rich, reddish purple self with large, well formed flowers. Sunfast with chartreuse throat. Scaped strong; well branched. ....	\$2.00
<b>COEUR DE LION</b> (Connell 1952)—34" Ev. Re.—Big golden yellow. ....	\$3.00
<b>CRADLE SONG</b> (Milliken 1953)—32" Ev. Re.—Immense gold opening in afternoon and lasting through next day. Well branched scapes. H. M. 1955. ....	\$2.00
<b>CREPE DE CHINE</b> (Davis, C. W. 1954)—42" Ev. Re.—Early chrome yellow. Large, creped flowers faintly dusted maroon at eyezone. Scapes strong. Sunfast. ....	\$1.00
<b>CREPE SUZETTE</b> (Connell 1952)—34" Ev. Re.—Light yellow self of Amaryllis form. Fragrant flowers with wide, ruffled petals. ....	\$3.00
<b>CRIMSON GLORY</b> (Carpenter 1951)—40" De. Re.—Crimson self of good substance. Strong, well branched scapes. J. C., 1951; H. M., 1955; A. M. 1958. ....	\$2.50
<b>COSETTE</b> (Milliken 1953)—36" Ev. Re.—Soft yellow with rosy dusting. Sunfast flowers with broad, ruffled petals. H. M., 1955; A. M., 1958. ....	\$2.00
<b>CRIMSON KING</b> (Buck 1950)—34" De.—Deep crimson with darker red halo. ....	\$1.00
<b>CRIMSON STAR</b> (Douglas 1950)—38" Semi-ev.—Medium large flowers of deep crimson. Sunfast. Strong, erect scapes. Growth vigorous. H. M., 1952. ....	\$1.00
<b>CRINOLINE</b> (Taylor 1955)—32" Ev. Re.—A beautiful pink. Well formed, medium size flowers of good substance and green throat. J. C., 1954; H. M., 1955. ....	\$8.00
<b>DAAFU</b> (Claar 1955)—24" De.—Deep rose pink with a frosty sheen and a deeper rose-red banding. Sunfast flowers of excellent texture. H. M., 1957. ....	\$5.00
<b>DAINTY DEB</b> (Childs 1953)—34" De.—Star shaped pink with green throat. ....	\$2.00
<b>DAMASCUS</b> (Saxon 1952)—42" Semi-ev.—Large salmon pink, heavily veined. ....	\$2.00
<b>DARK SECRET</b> (Connell 1952)—32" Ev. Re.—Large, dark velvety red self. ....	\$5.00
<b>DAWN PINK</b> (Kraus 1955)—36" De.—Large, wide flaring Azalea pink veined Jasper red. Well formed, ruffled flowers of good texture. ....	\$5.00
<b>DEVON CREAM</b> (Nesmith 1945)—39" De.—Creamy yellow extended bloomer with wide segments, fluted at edges. Sunfast. H. M. 1950; A. M., 1952. ....	\$2.00
<b>DIADEM</b> (Wheeler 1953)—36" Ev. Re.—Superior bicolor of salmon pink and soft yellow. Wide, frilled petals on sunfast flowers. Well branched strong scapes. ....	\$2.00
<b>DISPLAY</b> (Hall 1951)—34" De.—An eye arresting, bright, velvety red of medium size and good substance. Sunfast flowers. H. M., 1953. ....	\$1.50
<b>DUNA</b> (Taylor 1953)—38" Ev. Re.—Round, full flower of chimney red with gold mid-stripe. Vigorous and prolific. Sunfast. ....	\$1.00
<b>EARLY BIRD</b> (Lester 1950)—30" Ev. Re.—Early blooming 6" pale yellow with cream	

midrib. Remains open almost 24 hours. ....	\$1.50
<b>EASTER MORN</b> (Wheeler 1944)—42" Ev. Re.—Wide segments of buff yellow duster old rose at the eyezone. Well branched and free flowering. A. M., 1951. ....	\$1.50
<b>EASTER SUNRISE</b> (Schmelzer 1954)—36" De.—Light golden yellow overlaid deep pink with green throat. Amaryllis shaped flowers creped and slightly twisted. ....	\$10.00
<b>EDWARD VII</b> (Connell 1952)—28" Ev.—Majestic gold self of very large size and superior form and substance. ....	\$2.00
<b>ENVY</b> (Farris 1957)—30" Ev.—Very large greenish yellow self with a green throat. Sunfast flowers on strong scapes. Good of evenings. ....	\$5.00
<b>ERASMUS</b> (Connell 1953)—32" Ev.—Full, compact flower of dark, glowing red. ....	\$1.50
<b>EUPHONY</b> (Connell 1956)—36" Ev.—Pale lavender pink with a faint halo. Large, well formed, star shaped flowers. ....	\$3.00
<b>EVELYN CLAAR</b> (Kraus 1950)—30" De.—The most popular of the new pinks. Sunfast flowers with wide, overlapping segments. H. M., 1952; A. M., 1955. ....	\$2.00
<b>EVENGLOW</b> (Terry 1956)—28" Ev. Re.—Flat, 5" flower of gold overflushed red. Broad, overlapping segments. Excellent substance. Strong scapes. H. M., 1958. ....	\$2.00
<b>FAIR MAIDEN</b> (Sutton 1951)—36" Ev. Re.—Warm, amber-rose tone. Large flowers of good substance. Strong, well branched scapes. Early. ....	\$1.50
<b>FAIRY DANCER</b> (Sass 1955)—32" De.—Soft buff with brownish red eyezone. Fragrant. Branching good. H. M., 1955. ....	\$5.00
<b>FAIRY WINGS</b> (Lester 1954)—36" De. Re.—Pale yellow with an elusive pink in the center of the petals. Large flowers with a waxlike substance. Throat and flower buds a cool green. Wonderful branching. A. M., 1957. ....	\$9.00
<b>FIDDLEHEAD</b> (Wheeler 1954)—36" Ev. Re.—Semi-double with three erect petaloids. Burnt orange with dark maroon halo. ....	\$2.00

**HESPERUS** (Sass 1940)—48" De.—7" flowers of deep yellow. Stout Medal, 1951.

**HILLS OF GOLD** (Davis, C. W. 1952)—38" Ev. Re.—Golden yellow. 5" sunfast flowers.

**HONEY BUNCH** (MacMillan 1954)—42" Ev. Re.—6" bicolor of salmon and old rose.

**IWANA** (Davis, C. W. 1954)—38" De.—Small velvety red with green throat. Sunfast.

**JEAN LAFITTE** (Claar 1950)—36" De. Re.—Velvety garnet veined rose ebony.

**JEWELL RUSSELL** (Russell 1950)—38" Ev. Re.—One of the best of the big yellows.

**KRISHNA** (Traub-USDA 1953)—48" Ev.—Large, velvety oxblood red. Orange midstripe.

**LEMONADE** (Davis, C. W. 1952)—36" Ev. Re.—Cup shaped blooms of light canary.

**LEMON TULIP** (Traub-USDA 1953)—44" Ev.—Clear lemon yellow with lily like form.

**LOCHINVAR** (Taylor 1947)—44" Ev. Re.—Large orange, red and pink blend. H. M., 1952.

**MAMIE LAKE** (Russell 1945)—44" Ev.—Large bicolor of orange red and yellow.

**MAN O'WAR** (Taylor 1950)—36" Ev. Re.—Brazil red of large size. Sunfast.

**MARCO POLO** (Lester 1950)—36" De.—Red with darker halo. Large, triangular form.

**MIMOSA ROSE** (Lester 1951)—30" De. Re.—Coral rose with wide, recurving petals.

**MING TOY** (Wheeler 1948)—20" Ev. Re.—Early, semi-dwarf, bright red.

**MITRA** (Traub-USDA 1952)—36" Ev. Re.—Reddish Mars orange. Faint halo. Sunfast.

**NIGHT LIGHT** (Farris 1954)—38" Ev.—Light chartreuse. Evening blooming.

**OLIVE BALDWIN** (Taylor 1947)—36" Ev. Re.—Old copper, veined purple. Sunfast.

**PAINTED LADY** (Russell 1942)—36" De. Re.—Large cinnamon. A. M., '50; Stout Medal, '51.

**PARTY GOWN** (Milliken 1948)—34" Ev. Re.—Creped pastel bicolor. H. M., 1952.

**PATRICIAN** (Davis, C. W. 1953)—42" Ev. Re.—Large, bold, red bitone. Sunfast.

**RED MOUNTAIN** (Davis, C. W. 1952)—72" Ev.—Sunfast, 5" flower of Anatolia red.

**RED ROVER** (Davis, C. W. 1954)—42" Ev. Re.—5" bright red, sunfast flowers.

**REINBECK** (Traub-USDA 1953)—48" Ev.—Large barium yellow suffused pink.

**SAFFRON QUEEN** (Traub-USDA 1953)—36" Ev.—Saffron yellow with 4½" flowers.

**SALLY O'NEAL** (Taylor 1948)—38" Ev. Re.—Large pale yellow, up-facing blooms.

**SALMON SHEEN** (Taylor 1950)—34" Ev. Re.—Veined salmon pink. A. M., 1956.

**SCARLET SUNSET** (Wheeler 1947)—36" Ev. Re.—Brilliant scarlet. A. M., 1953.

**SPICE** (Taylor 1949)—36" Semi-ev. Re.—Rosy tan. Sunfast. H. M., 1952.

**SU-LIN** (Nesmith 1941)—36" De. Re.—Bicolor of mauve and yellow. A. M., 1952.

**SWAN** (Watkins 1942)—30" Ev. Re.—7" sunfast golden yellow.

**WHEELER HALO** (Wheeler 1943)—42" Ev. Re.—Evening blooming yellow with halo.

**ZEZETTE** (Taylor 1948)—36" Ev. Re.—Marsh rose with yellow midrib.

### DAYLILY SEED

Hand pollinated seed from the best varieties listed in this catalog. These seed are from carefully selected crosses designed to bring about improvement in size, form, substance, color and/or scapes. Place orders throughout the year for delivery during the months of July, August and September. If planted as soon as received and the bed kept shaded and moist for two weeks the seed will germinate promptly, producing new plants which should bloom in two years. This is an interesting and inexpensive means of securing many new and beautiful plants. Start now and have a few new seedlings coming into bloom each year. Northern gardeners see page 135, THE HEMEROCALLIS JOURNAL, 1958 Yearbook Issue.

Pkt. of approximately 150 seed ..... \$1.00

## CRINUMS

These are large and showy, lily-like plants for the Lower South. They are appealing and intriguing hallmarks of old southern gardens which have come into a new surge of popularity in recent years all over Southern United States into California. The Powellii varieties and *C. bulbispermum* are half hardy and may be grown with good protection as far north as Ohio and New Jersey.

The culture of these beautiful plants is easy. They may be moved at any time, but fall planting is recommended. If given a fertile soil, high in organic matter, and watered frequently during the summer they will reward the gardener with their glossy foliage and a profusion of fragrant blooms. They will survive (but not thrive) and furnish some bloom during periods of neglect.

The following varieties are offered in flowering size bulbs:

C. AMERICANUM.	White, star shaped flowers. Late spring and early summer.	\$1.00
C. ASIATICUM.	A giant among the Crinums, making bulbs up to 25 pounds and leaves 4' to 6' long. Large, star-shaped, white flowers on stems 3' to 4' long. Glossy, attractive foliage.	\$5.00
C. BULBISPERMUM.	The most hardy and earliest to bloom. Handsome blue green foliage. Pink and white flowers on 2' to 3' penduncles. Seeds freely.	\$1.50
C. CAMPANULATUM.	White with pink stripe in center of petals.	\$2.00
CATHERINE.	Pure white except for the purple ends of the pistil and stamen. Penduncle 2' to 3'. Flowers May to July.	\$1.50
ELLEN BOSANQUET.	A very popular deep wine colored hybrid. Blooms in late June and July. Penduncle 3 feet.	\$1.50
EMPEROR OF INDIA.	Large, spreading, star-shaped flowers. Summer blooming. Of uncertain hardiness north of Baton Rouge. Winter protection with a mulch of leaves or straw is recommended. Rare.	\$3.00
C. ERUBESCENS.	Pure white with light pink keel. Blooms midsummer to late summer. Frequently called "Milk and Wine Lily."	\$1.50
C. GIGANTEUM HYBRID.	Also known as Christopher Lily. Blooms in midsummer. Pure white, tulip-like, cup shaped flowers. Very fragrant. Increases rapidly from offsets.	\$1.00
J. C. HARVEY.	A popular pink hybrid, blooming in June.	\$2.00
C. LATIFOLIUM.	Fragrant trumpets of pure white with waxy texture. Summer.	\$2.00
LOUIS BOSANQUET.	A Powellii type with light pink flowers in July.	\$1.50
POWELLII var. ALBUM.	A beautiful and vigorous white hybrid blooming in May and June. Reportedly hardy in Tennessee and the Carolinas when given some winter protection.	\$2.50
C. SANDERIANUM.	Large, white trumpet shaped flowers with bright red keel. Blooms in early spring and repeats. Penduncle 3' to 4'. The most spectacular of the early blooming Crinums.	\$2.00
C. SCABRUM.	White with crimson keel. Penduncle 1' to 2' tall. Flowers in June in Louisiana. Sets seed freely. Leaves with "scabrous" or wavy margins.	\$1.50

## CRINODONNA (Synonym: Amarcrinum)

CRINODONNA CORSII Clone 'FRED HOWARD.' Lovely, highly perfumed pink trumpet. A cross between *Crinum Moorei* and *Brunsvigia rosea*. Blooms in late June and July.

\$2.50

## GLORIOSA ROTHSCHILDIANA

(The Climbing Lily)

These gloriously beautiful, exotic plants attract more attention and more discussion from visitors than any other plants at this nursery. They come from East Africa, but will grow well in any part of the country where gladiolas may be grown. The vines are 3' to 6' long, supporting themselves by tendrils on the ends of the leaves. They make numerous large, showy flowers of crimson and yellow with the flower changing to light maroon after it is several days old. Excellent for arrangements or may be used as a corsage.

Planting may be in sun or light shade, but the soil should be loose and friable. Heavy soils should be lightened by the addition of sand and peat or compost. Planting

is done when the weather begins to warm up in the spring. Delivery in February and March.

Single tubers .....	\$1.25
3 tubers .....	\$3.00

## **CURCUMA LATIFOLIA**

**(Ginger Lily)**

This strikingly handsome foliage and flowering plant is the largest and probably the best of the "Ginger or Hidden Lilies." It is a relatively recent import from India by Mr. Wyndham Haywood of Winter Park, Florida. The spikes are 12" to 18" tall, coming up fully two weeks before the foliage appears. They are a pinwheel of rosy lavender bracts above bright yellow, snapdragon like flowers. They remain in bloom and are attractive for another two weeks after the foliage appears. The foliage is very ornamental, making a beautiful specimen plant six feet tall.

Tubers may be left in the ground during the winter in the Gulf Coast Region, but should be protected by a light mulch. Delivery in February. .... **\$2.00**
